DETAILED ACTION

1. Due to Applicant's changes to the drawings submitted 1/14/03, a new election of species is needed in this application. All claims appear to be directed to the following embodiments. Note that newly submitted claims 23 and 24 were renumbered as claims 39 and 40 because claims 23 and 24 were previously cancelled and can not be brought back into the case.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Figures 1-4;

Figures 1D-4D;

Figures 1C-4C ;

Figures 1B-4B ;

Figures 1F-4F ;

Figures 1G-4G ;

Figures OJ and 4J ;

Figures OJ1 and 4J1;

Figure OK;

Figure OK1;

Art Unit: 3612

Figure OK2;

Figure OK3; and

Figure OK4.

Applicant must elect a single embodiment from the figures listed above and provide a list of claims that go with the elected figure(s) even if a traversal is included. If an argument that other figures should be grouped with those elected, Applicant should also provide a list of claims that would read on the argued grouping of figures.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic to all of the species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3612

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
